NEARLY WIPE OUT

A Sotnia of Cossacks Were Ambushed by the Japanese Near Taku-Shan.

COMMANDER AMONG WOUNDED.

The Russians While Patrolling Fell in With Three Squadrons of Jap Cavalry, Who Retreated.

The Cossacks Followed and Fell Into An Ambuscade, a Body of Japanese Infantry Being Concealed Behind a Small Hill.

Liao Yang, May 26.—A wounded Cossack who arrived at the village of Sayolentsi Tuesday, reports that a fight took place north of Taku-Shan on May 20, in which the Japanese ambushed a sotnia of Cossacks and nearly wiped them out.

The Cossacks were patrolling to the north of Taku-Shan for a distance of 18 miles when they fell in with three squadrons of Japanese cavalry who retreated. The Cossacks followed and fell into an ambuscade, a body of Japanese infantry being concealed behind a small hill.

Commander Beckromeshoff ordered his men to draw their sabres and cut their way out, when his horse was shot under him. He had just time to order the sotnia to scatter when he fell wounded.

The Japanese then closed in on two sides, firing volleys at close range. The two remaining officers fell and the sotnia retreated with the loss of three officers and 30 men.

Seoul, Korea, May 26.—A telegram has been received here from Gen-San, on the east coast of Korea, saying that the Russians, after the engagement with Korean troops at Ham-Heung, on May 19, burned the shrines and the royal mausoleum, which were erected by the founder of the present dynasty in the year 1364 and which were regarded by the Koreans as sacred. This apparent wanton desecration of tombs in a land imbued with the spirit of ancestor-worship has caused excited denunciation of the Russians on the part of Seoul officials. (Ham-Heung is on the coast of Korea and about 50 miles north of Gen-San.)

The Cossacks, which are believed to be at Kyongsong, have, according to Korean reports, about 20 guns with them. If this is true, this body is probably composed of Trans-Balkal horse batteries, several of which were attached to the first corps at Vladivostok before the war.

A Japanese who has returned here from Yongampho reports that there are only a few Japanese troops there. The people are quiet, but they do not welcome the Japanese occupation because of the severity of the military authorities. The Russians left many thousand feet of useful timber at Yongampho.

There are not more than 8,000 soldiers in the garrison at Seoul. Barracks which heretofore were filled are now vacant, the troops having gone north to Anju. The local gendarmes are being transferred to Yongampho, Wiju and Antung.

BATTLE AT SANSURIPO.

The Result of the Engagement Has Not Been Learned.

The Foo, May 26.—A junk which left Dalny on the night of the 23d and which arrived here Thursday reports that the Japanese army had then reached Sansuripo, which is north of Dalny and southwest of Nangallen. The Russians offered a stubborn resistance to the advance of the Japanese and a battle was fought at noon on the 22d at Sansuripo. The result of the battle was not learned by the bearers of the news.

The advance of the Japanese indicates that they have recovered from the reported reverse at Kin Chau. The Russians at Talien Wan have prepared to destroy the town upon the arrival of the Japanese. The Russian plan is to have the troops on the Liao Tung peninsula fall back to Port Arthur after harassing the invaders.

From the best information obtainable it is learned that the Japanese have landed near Kin Chau and are advancing along the railway to Port Arthur. Those that landed at Pitsewo are traveling down the east side of the peninsula to Dalny and those that landed at Taku Shan are going to reinforce the Feng Wang Cheng army.

ENDED HIS LIFE BY A SHOT.

New York, May 26.—David Levy, 34 years old, a lawyer of this city, shot himself in the right temple here Wednesday and died soon afterward. He was president and treasurer of the Auditorium Theater Co. Financial trouble the cause.

KENTUCKY GRAND ARMY MEN.

They Favor the Erection of a Monument in Memory of Gen. R. E. Lee.

Frankfort, Ky., May 26.—The Kentucky department, Grand Army of the Republic, will adopt resolutions urging the national department to call upon congress to erect at Washington a monument to the memory of Gen. Robert E. Lee. The resolution, which was offered by Judge O. S. Deeming, of Robertson county, a leading lawyer, republican and union veteran, is as follows:

"Whereas, Nearly forty years of unexampled prosperity to our country have elapsed since the close of the civil war, and

"Whereas, The people of the south have given convincing evidence of their good faith in laying down their arms, and have shown a willful acquiescence in the result of that terrible conflict,

have proved their patriotism and their love for the union, and have sealed their devotion to the American flag with their blood in the Spanish-American war, and desiring to give the confederate veterans a soldier's earnest, and to the people of the south, a new and stronger pledge of brotherhood, to the end that a united, bound together by stronger and more perfect ties of confidence and love, may journey on through the centuries to a happier and a more glorious destiny. Therefore, be it

"Resolved, That it is the sense of the Grand Army of the Republic, of the Department of Kentucky, that a suitable monument be erected at public expense in the city of Washington to the memory of Gen. R. E. Lee, and that the members of the Grand Army of the Republic petition the congress of the United States to make the necessary appropriations and take such other steps as will be necessary to have this done."

William T. Bowsmith, of Covington, was elected department commander for Kentucky.

TWO MEN STRUCK BY LIGHTNING.

Constance, Ky., May 26.—During the thunder storm Capt. H. Kottryer, the ferryman, and George Peeno were struck by lightning. Kottryer was at his stable when lightning struck a pipe. Peeno was in Webb Riggs' barn, on the hay, lying down, when he was struck. Part of the roof was torn off. Kottryer was knocked about six feet, and the shovel he had in his hand was thrown some distance.

Louisville Tobacco Market.

Louisville, Ky., May 26.—The New York house of Kreamelberg & Co., has purchased 3,000 hds of dark lugs from the Italian rebleuters and will be sent to Spain. The price was around 4c a lb. The market was steady Wednesday, and good prices were realized. The offerings were 543 hds, of which 220 were burley and 323 dark. Burley sold from \$4 to \$20.50. Dark brought from \$2.90 to \$8.

Two Killings Near Middlesboro.

Middlesboro, Ky., May 26.—James Gilbert, 17, shot and killed Walter Mills, 16, at Mulberry Gap, 20 miles away on Greasy creek. James Garver shot and killed his father, Jay Garver, for correcting his child.

TEN MINERS DEAD.

They Were Suffocated by Gas and Sulphur Fumes From a Small Locomotive.

ACCIDENT OCCURRED IN A TUNNEL.

It Had Been in Operation For More Than 40 Years and This Was the First Mishap.

Some Forty Others Were Overcome By the Deadly Fumes From the Engine Floating Over Them, But Later Recovered.

Wilkesbarre, Pa., May 26.—A telegram received at the Susquehanna Coal Co.'s office in this city Wednesday afternoon states that ten miners were suffocated by gas and sulphur fumes from small locomotive Wednesday afternoon in the workings of the Summit Branch Coal Co. at Williamson.

The tunnel in which the disaster occurred is one mile in length and is used by the coal company to convey the coal mined in the workings in the Bear valley to the breaker in the Williamson valley. About 4 o'clock Wednesday afternoon General Inside Foreman Golden and about 50 miners boarded a loaded trip which was about to be hauled from Bear valley to Williamson. Everything went all right until about half of the journey was made when some of the men attracted the attention of the engineer who at once stopped and it was found that nearly every man in the party on the cars had been overcome by the gas and sulphur which emanated from the stack of the locomotive and floated back over them.

The tunnel had been in constant operation for more than 40 years and this is the first accident of any kind that has happened in it. The names of the dead thus far ascertained are: Michael Golden, general inside foreman; George Raidle, master mechanic; John Furney, Jos. Punch, Enoch Morgan, Albert Nau, Fred James, Adam Scoppenheimer, John Freden, Samuel Freden.

RAILWAY WRECK.

Twenty Persons Were Injured Near East Liverpool, O.

East Liverpool, O., May 26.—Twenty persons were injured, some seriously, in a wreck on the Cleveland & Pittsburgh road near here Wednesday afternoon. The wreck was caused by the train running into some freight cars that had broken loose and got onto the track.

The injured: Engineer Holdy, East Liverpool, bruised and shoulder hurt; Fireman Williams, Cleveland, badly crushed in jumping from cab; Conductor H. McKee, Bellaire, bruised; Express Messenger Johnson, Cleveland, bruised by safe falling on him; Mrs. J. A. Cotton, colored, teacher, from North Carolina, head and shoulders bruised; Miss Minnie Wright, Harrisburg, Pa., teeth knocked out; James Costello, Cleveland, cut over eye; Mrs. John Dutach and child, severely bruised; Mrs. Isabella Townsend, Tarentum, Pa., head cut, teeth knocked out and hand crushed; John Newman, cut on forehead; Frank Miller, Pittsburgh, neck sprained, face cut; W. F. Parker, East Liverpool, bruised. Several other persons received less serious injuries. The engineer of the train had just resumed work after two years lay off from injuries received in another wreck.

TWO MILLION DOLLAR LOSS.

The Principal Portion of Yazoo City, Miss., Destroyed By Fire.

Jackson, Miss., May 26.—With every business house of any importance in ashes together with a large number of private residences, the principal hotel and the passenger depot, Yazoo City, a town of 6,000 people 45 miles from Jackson, is resting after one of the most exciting days in its history. The fire started at 8:30 o'clock Wednesday morning and burned until 5 o'clock Wednesday afternoon, destroying a total of 200 houses. The burned district is three blocks wide and 12 blocks long. The estimates of the loss are between \$600,000 and \$2,000,000.

The city is putting in a new system of water works and the old system, which had wooden mains, was wholly inadequate to meet the demand. Pipes burst all over the city and it was impossible to get the water even to the first floors of the buildings.

Louisville, Ky., May 26.—Arrangements are being made to run a business men's excursion, carrying 200 men, from Louisville and other Kentucky points, to St. Louis on Kentucky day, June 15.

THE DEFENSE RESTS.

Argument in the Schafer Murder Trial Begun at Bedford.

Bedford, Ind., May 26.—In the trial of James McDonald, charged with the murder of Sara Schafer, the defense refused to permit McDonald to go on the stand. Attorney Vance, for the defense, explained later that this was done because McDonald has told many different stories, and not that there was any belief of his guilt. Dr. Braxton, for the rebuttal, stated that there was no evidence of a No. 10 boot having been placed in the track discovered in the alley near the scene of the crime. Andy Bruce, for the defense, had made the statement that he had put his foot in the track mentioned. He had a No. 10 boot on at this time.

When called to the stand Policeman Myers was asked if at any time during his service as police officer he had noticed that McDonald exhibited any indications of nervousness or suppressed excitement. He replied that he had. At the conclusion of this testimony Prosecutor Miller began the opening argument for the state. He will be followed by Mr. Vance. Attorney Palmer will close the argument for the defense and Mr. Lowe for the prosecution.

Prosecutor Miller spoke for two hours and a half, reviewing the evidence in the case. At the close of his speech the applause was uproarious. Judge Wilson rebuked the people in the courtroom and cautioned against a similar demonstration.

THE ARGUMENTS.

Prosecutor McMullen in the Gillespie Case Opened For the State.

Rising Sun, Ind., May 26.—Long before Prosecutor Harry McMullen began his argument for the state in the Gillespie case Wednesday morning the court room was almost packed to suffocation. Those anxious to hear the arguments of opposing counsel early pre-empted every vantage place and intense interest was manifested in the oratorical arraignment that the four defendants are expected to receive, as well as the addresses to be made in their favor. Not only was the court room literally packed, but crowds also stood around the court house and waited for the arguments to begin.

Capt. Cole spoke for the defense. He read the law of circumstantial evidence and spoke of the gun evidence and appealed to the gun knowledge of the members of the jury in support of the contention of the defense. "I have a theory of my own that Lizzie was shot by a crank who had a gun in which there was at least very light rifling," he said.

ADVANCE IN WAGES.

A Voluntary Increase For the Flattenerers Ordered.

Pittsburg, May 26.—A voluntary advance in the wages of flattenerers was ordered by the American Window Glass Co. to take effect June 1. The 28 per cent reduction which went into effect March 12 has been restored and the straight Philadelphia scale will be paid in the flattening branch of the trade at all factories now operated by the American company. This action shows the determination of the company to run its factories as long as the men can be induced to work. At present only the machine equipped plants are in operation, and blowers and gatherers are not employed, the men operating machines receiving a stated rate of wages.

CONVICTED BANK PRESIDENT.

His Counsel Withdrew Motion For Certificate of Reasonable Doubt.

New York, May 26.—David Rothchild, who was convicted of grand larceny in connection with the Federal bank failure and sentenced to serve nine years in state's prison, Wednesday instructed his attorneys to withdraw their motion for a certificate of reasonable doubt. Assistant District Attorney Sandford announced after Rothchild's conviction that if the former bank president made a fight he would immediately call to trial other indictments now pending against him and it is said that Rothchild has concluded not to invite this action but to begin serving his sentence at once.

FROM HIGH WINDS.

California Fruit Growers Suffered a Heavy Loss.

San Jose, Cal., May 26.—The fruit growers of the Santa Clara valley suffered an almost incalculable loss from high wind that at times blew almost a hurricane. It is estimated that more than one-half of the ripening cherry crop is destroyed, and that from 20,000,000 to 30,000,000 pounds of prunes are on the ground.

Washington, May 26.—Secretary Taft returned here from the Adirondacks Wednesday much improved in health.

POSTAL SCANDALS

Jury in Case of James N. Tyner and H. J. Barrett Returned Verdict of Not Guilty.

WAS OUT TWENTY-TWO MINUTES.

They Were Charged With Conspiracy in Connection With Their Duties as Law Officers.

Gen. Tyner Broke Down Completely and Several of the Jurors Wept With Him and All Shook His Hand.

Washington, May 26.—Within 22 minutes of the retirement of the jury in the case of James N. Tyner and Harrison J. Barrett, tried on charge of conspiracy in connection with their duties as law officers of the post office department, a verdict of not guilty was returned. The throng which filled the courtroom throughout the arguments to the jury hardly had time to leave the building before the jury was back and the foreman announced that a verdict had been reached. Gen. Tyner, expecting a longer wait, had been wheeled from the room and his nephew and co-defendant hastened to give an order which caused him to return.

Gen. Tyner appeared greatly excited as he attempted to face the jury and when the verdict was returned he broke down completely. Several of the jurors wept with him and all of them shook hands with him.

The Tyner-Barrett case was begun on May 2, and has been before the court 19 full days. A great mass of testimony was offered. The prosecution brought forward an army of witnesses, a majority of whom were former officers of bond investment companies, through which Harrison J. Barrett, the junior defendant, was alleged to have profited after he left the post office department by practicing before his uncle who remained in the department.

The principal arguments made Wednesday were by A. S. Worthington for the defense and Maj. Holmes Conrad, special counsel for the government, for the prosecution. The latter directed his efforts almost entirely to an attempt to counteract any influence on the jurors' verdict which might result from sympathy for Gen. Tyner. He told the jury that they had no right to entertain sympathy for Gen. Tyner or the young wife of Mr. Barrett, who was a witness in the defendant's behalf.

Judge Pritchard's charge to the jury was long. He had granted a number of the prayers offered by counsel on both sides and in addition his own charge covered a dozen typewritten pages. Among other things he told the jury that it had had an opportunity to observe the conduct of all of the witnesses and could take into consideration any interest they may have had in giving their testimony. He called like attention to the testimony of the defendants and the weight that should be attached to their statements. The court said in conclusion that the jury might find the defendants guilty as to each count charged in the indictment or acquit them as to one count, and find them guilty as to the other or return a verdict of not guilty on both counts. Judge Pritchard emphasized the fact that the jury should not be influenced by prejudice on the one hand, nor sympathy on the other, and said the case should be tried solely on its merits and without regard to what the effect the verdict might have on the public mind. He gave a definition of conspiracy and made plain the meaning of "reasonable doubt."

PARKER FOR BRYAN.

New York Jurist Supported Nebraskan in Both of Latter's Campaigns.

"Parker voted for Bryan in 1896 and 1900. He did more. He used his influence to bring about Bryan's election and conferred with other Democrats to this end."

This statement was made by the Hon. John Wesley Gaines, Congressman from the Nashville, Tenn., district, who is in Louisville on his way home from the East.

Mr. Gaines is a great admirer of Judge Parker, having declared himself in favor of the New York jurist several years ago. He recently visited Judge Parker at his home and has the latter's word as to his political record. Mr. Gaines also has a letter from J. D. Wurtz, Chairman of the Democratic Committee of Ulster county, saying that Judge Parker was one of the most loyal supporters Bryan had.

"Democrats of the East say that Parker is the only man who can carry New York," said Mr. Gaines.

"They are relying upon the Democrats of the South to join hands with those of New York, Massachusetts, Connecticut and Indiana and nominate Parker. My own State of Tennessee will, I feel confident, instruct for Parker, and I hope Kentucky will do the same thing.

"Democrats everywhere I have been say Parker can win in the election, and I am absolutely confident that he will be the next President if the Democrats will only nominate him."

IMPORTANT DECISION.

Court of Appeals Rules That Express Company Must Pay Taxes on Its Franchise.

Mention was made in our dispatches Wednesday of the decision of the Court of Appeals in a case taken up from this county in which the court holds that the Adams Express Company must pay taxes on its franchise. The courts in this county decided in favor of the company, but are reversed by the upper court.

The suit was filed by former Auditor's Agent F. Stanley Watson and has been fought through the various courts by his attorney Mr. Allan D. Cole.

It is said the decision settles the contention of Messrs. Watson and Cole, that where a franchise has been omitted from taxation it is the duty of the County Court, on proper proceedings, to order the franchise assessed.

The parlors were crowded with Maysville's best people, and the entertainment was a social, financial and artistic success.

LABOR AND ITS DUES.

A Righteous Distribution Between Capital and the Men That Make It Is What Is Demanded.

Editor Bulletin: Collier's Weekly, a little two-by-four magazine published in New York, that employs perhaps three or four hundred people, with an investment of capital I would judge of a half million dollars, has this to say on the labor question:

"Every cent that can be paid to labor, up to the point where only so much goes to capital as will reconcile it to the risk of industry, is a nearer approach to righteous distribution."

What is a righteous distribution of money invested in labor by capital? If labor is a commodity on the market for sale, is it righteous to set up the claim that you shall have both the buying and selling price of the commodity? Is it a righteous distribution of capital to say I paid fifty cents for this man's labor to-day; if you want it take it at one dollar or let it alone? I do not understand that this is the idea of the editor of Collier's Weekly, but that money invested in labor is not entitled to a greater earning power than money invested in a building association or a bank. What would be your idea of a building association asking you fifty dollars for the loan of fifty dollars for a year? Why, you say, I do not care to purchase any of your labor, but I would like to have some of your two for one stock that labor is making for your association. If I go to capital and prove by figures that an investment in the stocks of my factory will pay fifty per cent, by a system of wages paid to labor that destroys self-respect in the father and makes a bawd of the daughter, I secure the capital needed and shot-guns for its protection thrown in.

I can not get away from this sentence "reconcile it to the risk of industry," which means that all goes to labor but legitimate interest on the capital invested, which makes the father self-respecting, and the daughter a fit companion for the lord of the mansion. They are one or the other in your exalted ideas of just dues to labor.

You make me self-respecting, or you destroy my manhood, by taking advantage of my pressing needs and debauch my family. You are an understanding enemy, praying upon ignorant friends, or a man that sees self-respect in fellow man and builds to it, that no injury may be done to his household. If I stand over the sunken grave in the pauper field in the low and swamp land of your beautiful "city of the dead,"

you can dare say that this form below my feet did not contribute to those tombs that stand in the high ground amid the waving grass and nodding lilies of the valley, or the blushing forget-me-nots that inhale the sweet fragrance of the violet that self-respecting and loving friends have planted in remembrance of your virtues?

If a Christ did not arise from the dead, and push aside those granite rocks that entomb him, I say away with self-respecting manhood, away blushing virtues, away with distress, I know you not. I build a foundation and erect thereon this spire of marble and engrave below my name, this epitaph: "In every age, it is easy to find men who have done bad things for which the law has provided no punishment."

While I now write these feeble efforts in behalf of making self-respecting men out of the capital that can risk itself on fair margins of investments there is being tried in our courts a man without the pale of law, a man that has been debauched, a man that has been deprived of self-respect, a man thoroughly debauched in poverty that leads down and down to the debauchery of his own family. If Christ did arise, I tell you that in that day when all shall give the account, look well that you have not lost self-respect for your fellow-man.

A well-equipped degree team will be secured and the beautiful ritual grandly exemplified. A committee has been appointed to prepare suitable entertainment for the many visitors expected from Augusta, Newport and elsewhere. Dulin Moss Returns From the West.

[Lexington Herald.] Mr. Dulin Moss, formerly a reporter on the Morning Democrat, returned Monday from an extended visit to the West, where he went for his health. Mr. Moss has made the tour of Colorado, California, Arizona, Utah, New Mexico and old Mexico. His stay in Denver was for about two months, and while there he reported for the Evening Post. Mr. Moss is much improved by his trip, and returned wearing an enviable coat of tan, such as is imparted by the prairie winds.

Continental Tobacco Company Seeks Location Here For Immense Warehouse and Rehandling Establishment.

The Continental Tobacco Company have men in our city with a view of purchasing ground to build an immense warehouse 450 by 250 feet. "I understand by this," said a gentleman this morning, "that it is the intention of the company to rehandle tobacco in its various stages of sweating and keeping process and that the labor employed will stimulate our not over prosperous merchants each and every week in the sum of one thousand dollars. Furthermore it is my information that the company absolutely refuses to employ any one for a less sum than \$1 per day and up to \$2 for unskilled workmen.

"The men have looked over a number of sites for the location of this building and have been priced out by exorbitant figures for a suitable place. We are fostering several industries that are in a pecuniary way a hindrance to our commercial growth for the simple reason that they pay very little for labor. I think there should be enterprise enough in our merchants to see the necessity of such industries as this Continental Company to their trade and take a day off and meet these people and try to secure for them what they want. They don't ask for a cent of contribution but say frankly, if you don't want us others do."

The importance of securing this establishment will certainly be recognized by every one. It will prove not only a good thing in a pecuniary way for this city, but it may lead to the erection of one of the company's factories at this point—just what we have been trying to secure for years. The Continental could work a revolution here, commercially and industrially, in a few years if the proper encouragement is extended. The merchants and real estate owners of Maysville should wake up and go to work to secure this establishment.

The temperature was up to 96° Wednesday,—a big change from that of a week ago.

The remains of Hanson L. Senteney, brother of Policeman Senteney, were not shipped from San Francisco until Tuesday. The delay was caused by the Coroner holding the body until the inquest was completed. Mr. Senteney's death was caused by a street car colliding with the car in his charge. On arrival of the remains at Ripley they will be buried by the Knights of Pythias.

Earl Sinclair, tenor, J. R. Hukill, baritone and violinist, of Lexington, formerly with Sibley & Metz illustrated songs and life moving pictures, arrived Wednesday to join the Williams & Weis Amusement Co., which will open their summer engagement at the Sixth ward fire hall this city Friday night, for the benefit of the Second M. E. Church. Those who attend are assured an evening of real pleasure.

There is a strong tie of confidence between this store and its patrons, one than can only exist as the result of years of acquaintance. Season after season we endeavor to do better than in the years before. Our efforts are appreciated.
